Radio:
Acting to extend life of Federal Radio Commission, 24-36.
Airplane ground radiophone system,* by Robert Johnson, 26-20.
Argues for monopoly of radio, wires, cable (O. D. Young), 25-19.
Carrier current program service,* by George R. Eaton, 19-23.
Congress extends life of radio commission indefinitely, 25-28.
Declares court decision requires revocation of R. C. A. licenses, 23-42.
General Motors manager of $10,000,000 radio company, 18-22.
Giving high grade program service,* by Ray H. Manson, 19-26.
Reducing summer slump in radio sales,* by R. S. Brewster, 19-22.
Some advantages of selected service, by O. C. Levy, 19-24.
Spain and Argentina connected by radiotelephone circuit, 17-20.
Telephone service established with ship at sea, 24-22.
To seek indefinite extension of federal radio commission bill, 18-23.
Wired Radio, Inc., renews applications for short waves, 8-42.
Rate cases and their presentation, by Ben B. Boynton, 22-23.
Revenue:
By-products of telephone companies,* by F. V. Newman, 15-24.
Campaign adds to exchange,* by Clyde Kauffman, 4-21.
Review, "Telephony's" annual, of industry, by Stanley R. Edwards, 26-13.
Roller skates speed up operators in handling switchboard work,* 20-21.

S

Salesmen, contest method of training,* by Max W. Newby, 11-14.
Sarnoff, David, urges definite policy on communications, 25-40.
Secretarial service: Company not obliged to furnish, 12-38.
Selling:
Advertising and selling service,* by Frank T. Byrne, 19-14.
Benefits of selling telephone service, by R. J. Benzel, 13-23.
Selling service with primer arguments,* by Dan Hughes, 19-32.
Senate hearings on communications bill, 24-30.
Service:
Advertising and selling service,* by Frank T. Byrne, 19-14.
Better service in small exchanges,* by T. DeWitt Talmage, 4-16.
Common battery for small town,* (Elsa, Tex.), 3-32.
Established with ship at sea, 24-22.
Informing farmer concerning service,* by C. L. Pickett, 15-14.
Selling service with primer arguments,* by Dan Hughes, 19-32.
Ship to shore service established, 24-22; 25-30.
Small exchanges:
Are small plants worth rebuilding? by J. W. Scott, 8-23.
Better service in,* by T. DeWitt Talmage, 4-17.
Common battery service for small town (Elsa, Tex.),* 3-32.
Trouble prevention in,* by Frank McKeehan, 1-20.
Stromberg-Carlson and its employes,* 18-36.
"Super-speeded" speech; transmission over light beams, 23-24.
Sweezy option money on Knapp Ohio properties forfeited, 19-21; Properties in Ohio sold to Chicago holding company, 25-18.

T

"Telephony's" annual review of industry, by Stanley R. Edwards, 26-13.
Teletype—the telephone typewriter,* by A. S. Benjamin, 20-24.
Television:
In color successfully shown,* 1-23.
Talking film by television demonstrated in London, 9-21.
Testing:
Location of telephone cable faults,* B. C. Burden, 14-16; 15-17.
Murray and Varley loops,* by Arthur L. Albert, 7-24.
Texas:
Common battery service for small town,* 3-32.
New equipment at Memphis,* by C. D. Kinne, 7-30.
Theodore Gary directs Missouri survey of financial resources,* by George A. Pickens, 10-20.
Toll:
Concerning the toll question — Banks' telephone survey (edit.), 20-15.
Hotel CLR telephone toll service, by Mrs. May H. Pernice, 23-21.
Traffic:
Branches of ringdown tributary calls,* by Anne Barnes, 11-28.
Central office management,* by Roy F. Mapes, 12-14.
Central office management fundamentals,* by Abbott D. Spaulding, 8-16.
Discussion of local completion of calls, by Mrs. Mayme Paeth, 1-29.
Division report and conference (Nat. conv.),* 17-44.
From Iowa traffic meeting, 15-20.
From New York traffic conference, 20-19.
Handling multi-switch toll traffic, by R. W. Simmons, 13-18.
Handling of multi-switch calls, 2-18.
How public get impressions of service, 16-60.
Long distance traffic estimates,* by I. W. Steans, 4-14.
Matters at Ohio convention, 1-28.
Need of general exchange tariff,* by Evangeline Fish, 5-16.
Operator tells of work in Hawaii, 6-20.
Operators' transmitters and receivers,* by H. I. Beardsley, 6-18.
Personalizing service in Illinois,* by Mrs. Dorothy H. Van Ert, 7-18.
Special telephone traffic services,* by E. L. Gaines, 25-14.

Telephone operating in New Zealand, 9–18.
The voice—how to use it and care for it, by Evelyn Wilkerson, 14–20.
Toll work at the tributary office, by Grace Coan, 5–23.
"Tricks of the trade" in management,* by I. W. Stearns, 18–14.
Training operators for advancement,* by Belle Bernetha, 11–30.
Twenty years of traffic service work, by Margaret W. Gonter, 24–28.
Trains, dispatching by loudspeaker,* by S. B. Ridge, 22–19.
Transmission:
Aluminum alloys used for diaphragms,* by W. J. Farmer, 23–18.
Better service in small exchanges,* by T. DeWitt Talmage, 4–17.
Reducing power circuit parallel noise,* by T. DeWitt Talmage, 11–17.
Value of transmission maintenance,* by L. B. Shepherd, 2–24.
Tree problem from different angles, by Harry C. Hyatt, 18–21.
Trend; "Making the curves behave" and why,* by H. P. Sentman, 13–14.
Trouble:
In small exchanges,* by Frank McKeehan, 1–20.
Location of telephone cable faults,* by B. C. Burden, 14–16; 15–17.
Locating with detecto-meter,* by Chris D. Stewart, 16–76.
Prevention and repair of cable,* by Don Peltier, 6–14.
The Murray and Varley loops,* by Arthur L. Albert, 7–24.

U

Union company of Owosso, Mich., reorganized, 3–18.

V

Vermont holds ninth annual convention,* 2–22.

W

Washington: Operating equipment at Everett,* by R. C. Hummel, 3–14.
"Wonder whys" of an observing traveling telephone engineer, by Ray Blain, 18–20; 20–21; 22–22; 23–24; 24–23; 25–29.
